VanEck lists three new crypto ETNs on Euronext Paris and Amsterdam

- VanEck now offers three new ETNs on digital assets Solana, TRON and Polkadot, to complement its Bitcoin and Ethereum ETNs on Euronext Paris and Amsterdam.
- VanEck is further expanding its pioneering role in innovative and future-oriented investment solutions.

Amsterdam, 24 September 2021– Followed by the listings on Deutsche Börse last Monday, VanEck also listed its three new crypto ETNs (Exchange Traded Notes) on the Euronext exchanges in Paris and Amsterdam. With this step, the accomplished ETF provider further expands its pioneering role for innovative and future-oriented investment solutions.

“We are very pleased that with this listings on the Euronext stock exchanges in Paris and Amsterdam, we can make our crypto strategies easily accessible to French and Dutch investors,” says Martijn Rozemuller, CEO at VanEck Europe.

In the last 12 months, VanEck had already launched exchange-traded products on Bitcoin and Ethereum, partly as the first global asset manager in the respective markets. Further ETNs are now following in order to open up the future market of cryptocurrencies for European investors.

“In June we were the first asset manager to list Bitcoin and Ethereum ETNs on Euronext in Paris and Amsterdam. We are proud that we succeeded again to be amongst the first to list Polkadot and Solana ETNs at Euronext and the only one to list a TRON ETN”, Rozemuller adds.
