**Key Risks**

**Industry or Sector Concentration Risk:** The Fund's assets may be concentrated in one or more particular sectors or industries. Defense ETF may be subject to the risk that economic, political or other conditions that have a negative effect on the relevant sectors or industries will negatively impact the Fund's performance to a greater extent than if the Fund's assets were invested in a wider variety of sectors or industries.

**Liquidity Risk:** Liquidity risks exist when a particular financial instrument is difficult to purchase or sell. If the relevant market is illiquid, it may not be possible to initiate a transaction or liquidate a position at an advantageous or reasonable price, or at all. This is one of the risk factors of Defense ETF.

**Equity Market Risk:** The prices of the securities in Defense ETF are subject to the risks associated with investing in the securities market, including general economic conditions and sudden and unpredictable drops in value. An investment in the Fund may lose money.

For more information on risks, please see the "Risk Factors" section of the relevant Fund's prospectus, available on [www.vaneck.com](http://www.vaneck.com).

**IMPORTANT INFORMATION**

This is marketing communication. Please refer to the prospectus of the UCITS and to the Key Information Document ("KID") before making any final investment decisions. These documents are available in English and the KIDs in local languages and can be obtained free of charge at [www.vaneck.com](http://www.vaneck.com), from VanEck Asset Management B.V. (the "Management Company") or, where applicable, from the relevant appointed facility agent for your country.
