The performance data quoted represents past performance. Past performance is not a guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Please call 800.826.2333 or visit vaneck.com for performance current to the most recent month ended.

The "Net Asset Value" (NAV) of a Fund is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Investors should not expect to buy or sell shares at NAV.

S&P 500® Index: consists of 500 widely held common stocks covering the leading industries of the U.S. economy. **Morningstar US Sustainability Moat Focus Index** consists of U.S. companies screened for ESG risks and identified as having long-term competitive advantages and whose stocks are the most attractively priced, according to Morningstar.

The Fund's ESG strategy could cause it to perform differently compared to funds that do not have an ESG focus. The Fund's ESG strategy may result in the Fund investing in securities or industry sectors that underperform other securities or underperform the market as a whole. The companies included in the US Sustainability Moat Focus Index may differ from companies included in other indices that use similar ESG screens. The Fund is also subject to the risk that the companies identified by the Index provider do not operate as expected when addressing ESG issues. Additionally, the Index provider's proprietary valuation model may not perform as intended, which may adversely affect an investment in the Fund. Regulatory changes or interpretations regarding the definitions and/or use of ESG criteria could have a material adverse effect on the Fund's ability to invest in accordance with its ESG strategy.

An investment in the Fund may be subject to risks which include, among others, risks related to an ESG investing strategy, equity securities, health care sector, financials sector, consumer staples sector, information technology sector, medium-capitalization companies, market, operational, high portfolio turnover, index tracking, authorized participant concentration, no guarantee of active trading market, trading issues, passive management, fund shares trading, premium/discount risk and liquidity of fund shares, non-diversified and index-related concentration risks, all of which may adversely affect the Fund. Medium-capitalization companies may be subject to elevated risks.

Investing involves substantial risk and high volatility, including possible loss of principal. An investor should consider the investment objective, risks, charges and expenses of the Fund carefully before investing. To obtain a prospectus and summary prospectus, which contains this and other information, call 800.826.2333 or visit vaneck.com. Please read the prospectus and summary prospectus carefully before investing.
